Semiotics

सांकेतिकता (Semiotics) क्या है और हमारे लिए क्यों आवश्यक है ?

By definition, semiotics is the study of signs and symbols and their use or interpretation.

Prarang's city semiotics displays a select geography's Content reading, rejecting, browsing & watching trends are a reflection of its continuously changing Emotions & Interests.

It also provides important insights into the City's need vis-à-vis the City's work & education patterns. This is a continuous feedback loop useful for governance & also for customizing products & solutions.
